Subject: Antigonish merger
Date: May 24, 2023 7:21:47 PM

I just read the column on the proposed merger of Antigonish written and signed by your president and chief executive officer.

First of all, this does not concern you. It is the business of every resident being affected by these councils. Secondly, the letter is nothing but blatant partisan support for your colleagues. It also does nothing to change peoples minds since there is absolutely no information to support this decision. The main reason people want a vote is to force the councils to give us the pros and cons of this merger.

Apparently government officials at every level don't like to be transparent. So kindly keep your opinions to yourselves as they are not helpful.
