

## #2 SCENARIO

# Apocalyptic.

Yes Political Will

→ All of the power

No - Public Will

- No advocacy

- No volunteerism.

- Lack of input/needs not addressed.

No ground gained, no adoption

- Disengagement.

} 2nd panel.  
situation.

## Barrier to be public will.

- Politicians don't ask for input.
- Black/White Engagement - Lack of engagement
- Financial Incentives not available. - Where are the people doing good work
- Only receiving negative feedback.
- Not looking at all the variables in a solution. - and how together they make an impact.
- Discouraging contributing to where you grew up.
- Lack of education - sustainability
- climate literacy.
- Prioritization/different skillsets are valued inequally.
- Lack of focus on issues just focusing on impacts of the issue - can't catch up.

→ Not Actions that they don't solve the problem.

## CHARACTERISTICS OF NS

- Social systems overwhelmed.

- Overdrawn public services.

- Burden on public services

- Food & housing insecurities.

- Increase <sup>urgency</sup> of ~~food~~ (dependent on public services)

- Systems/services created without input.
