

Advocacy

NSFM is responsible for advancing the interests of Nova Scotia's Municipalities.

Consultation, Analysis & Reports

As the voice of Nova Scotia's Municipalities, NSFM consults with our members on issues impacting their communities. We share the municipal perspective with other levels of government and stakeholders.

To ensure accurate representation, we often survey and meet with our members. We produce reports for use by all three levels of government, and the public. We also monitor, analyze, and circulate updates on legislation and regulations that impact the municipal sector.

Communications

We connect with our members through various channels including our weekly newsletter, **the Monday Memo**. Members will also see direct emails from NSFM Communications on important and timely issues.

Check out our social media presence on Twitter, Facebook, and our YouTube channel. Make sure you read through your copy (either print or digital) of the Municipal Observer. This magazine is issued bi-annually (Spring/Summer, Fall/Winter) and highlights projects and success stories from our members.

We are joining with the other Provincial/Territorial Associations in Atlantic Canada to publish the Atlantic Municipal Magazine starting in 2023.

Member Information Sessions

These sessions tackle emerging issues and provide unique Q&A sessions with other levels of government and stakeholders. Topics range from infrastructure, to funding, to community well-being.

Committees, Working Groups, Consultation

NSFM represents our membership on numerous committees and working groups. From coastal protection to affordable housing to service reviews, NSFM is making sure the municipal point of view is heard.

Bi-Annual Conferences and Webinars

NSFM events provide networking and professional development opportunities by bringing our members together with subject matter experts, community leaders, and officials from other levels of government to exchange ideas and create opportunities for collaboration.

Our webinars connect our members directly to stakeholders in key areas to develop a deeper understanding of important issues and collectively map out solutions.
