

How can residents

be involved in implementing low carbon community projects?

- We need the community to be involved
 - tell us what to do
 - diverse voices
- Community: "how do we do this"
"how do we get involved"
example from in home waste diversion
- bike hub
- Keep things simple
 - accessible
 - simple language
 - approachable
- community challenges
- providing resources
- Sphere of influence/impact
 - ripple effect
 - different levels of community
 - home, street, neighbourhood
- LISTEN
 - organize public hearing
 - gather info
 - REPLY
- Clear Communication channel
 - raising awareness
 - collaboration
- Foundational training
 - opportunities to learn
 - knowledge
- economic
 - the business case
- Active participation
 - build ownership
- Finding belonging
 - if there is a limited community connection

Renters and Landlords

- power imbalance
- the incentive
