

How can we address energy equity?

- listening
- learning
- engagement
- energy poverty
- need of the hour - so many diverse groups
- Set a baseline for needs
- ★ hire person from city to be mediator btw policy makers / municipalities (person may need training/support)
- more inclusive - people need access to all EE measures.
/repates etc
- Career pathways
- Still a need to get voices at the table and amplify them.
- Needs assessment in the community, support city to do the work themselves, build capacity for future - feel ownership. /involved.
- public perception.
- affordable to everyone
- ★ funding needs to be enough - case by case - sliding scale.
- host engagement at cultural centers churches
- ★ and all levels of education

What is energy equity?

recognition that some communities have been historically marginalized and overburdened by pollution,

Underinvestment in clean energy infrastructure, and lack of access to energy-efficient housing and transportation. PNNL (US)
